WEB DEVELOPMENT INTERN AT SOLID  
INTERACTIVE

---

## Summary

Stemming from a life long interest in all things tech, I decided in 2014 to delve into a career in web development. I chose to educate myself in programming at Epicodus in Portland, Oregon, which I finished in April of 2015. I am currently a web development intern at Solid Interactive, an application and web design agency based in the heart of downtown Portland. In my spare time, I like to develop applications using languages like Ruby, AngularJS, Node, Ruby on Rails, and pure Javascript. Learning how to integrate new APIs or picking up a new framework right for the job are just a couple of the things that exhilarate me about my future in the tech industry.

In my free time I enjoy discovering and creating music, hiking on Oregon's beautiful trails, and snowboarding when weather permits!

## Skills

- Ruby
  - SQL
  - Git
  - Ember.js
  - AJAX
  - JSON
  - Web Development
  - GruntJS
  - HTML
  - JavaScript
  - jQuery
  - Sinatra
  - CSS
  - PostgreSQL
  - Node.js
  - Ruby on Rails
  - AngularJS
  - BDD
  - Firebase
  - Pair Programming
  - APIs
  - MySQL
- 

## Experience

### Solid Interactive Web Development Intern

04 / 2015 - Present

Put in an agile project development environment including developer meetings and code reviews, I received great experience with full stack JavaScript development. I was also in direct contact with fantastic JavaScript and Mobile development seniors. Throughout the internship I was exposed to workflow tools like Jira, Gitlab, using them in tandem with high-level Git functionality.

---

### The Ridge Bartender

11 / 2014 - Present

Transitioning back into a dining setting to reconnect with my roots in outstanding customer service, I have been responsible for taking care of guests on a few of the week's busiest days where only the A-team can survive and shine. Focuses on care of guests on an individual bartender level rather than the grand team effort required in a high volume setting.

---

Big Al's at Progress Ridge  
Bartender / Trainer

10 / 2012 - 12 / 2014

Moved from a small fine dining restaurant to Big Al's, an incredibly high volume setting where teamwork and quick decisions are valued greatly, specifically to improve my skills as a Bartender. Once my talents fully matured, I became responsible for onboarding and training every Barback and Bartender who started fresh within the company.
