Experience

Front-End Web Developer - https://www.country-lyrics.com   *2014 to Present*
- Conducted research analysis to qualify design elements.
- Developed frontend area using HTML5, CSS3, Sass, JavaScript, and jQuery.
- Make the website cross-browser compatible across all devices and browsers.
- Responsible for testing, troubleshooting and fixing bugs in the frontend area of the site.
- Extensive usage of bootstrap, and media queries on Sass files for responsive design.
- Worked in a team using GIT.
- SEO, page ranking and building up backlinks.
- Configure CloudFlare for better performance.

Front-End Web Developer - http://www.anilist.co   *2013 to 2015*
- Front-end development using HTML5, CSS3, Sass, JavaScript, jQuery, and some AngularJS.
- Configure CloudFlare for better performance.
- Routinely made design examples for approval by project manager.
- Worked with a front-end team of 5 people using GIT.
- Applied Sass for the first time increasing efficiency and speed.
- Use key frames animations to create awesome and reusable animations.
- SEO, page ranking and building up backlinks.

Front-End Web Developer - http://www.animecenter.tv   *2011 to Present*
- Created a custom website using Drupal CMS (2011).
- Handled server setup and migrations.
- Configure CloudFlare for better performance.
- Optimized the CMS to improve UI, Design and performance using best practices in 2013.
- Deal with a lot of DDoS attacks by blocking IPS, setting up firewalls and only accepting traffic that went through CloudFlare.
- Optimized SEO to attract more organic visitors, work on page ranking, creating and exchanging backlinks.
- Created branding strategy based on demographics.
- Routinely utilized HTML5, CSS3, JavaScript and jQuery.
- Worked on a strategy to upgrade the site to the Laravel framework.
- Successfully transfer the whole frontend area from old Drupal to Laravel.
- Currently working on a new version of the site in Laravel with new UI, Design, Responsive Friendly, and better performance practices in (2016).
- Planning to rename the site to www.animecenter.co and redirected the old domain to it
