## PROFILE

Front-End Web Developer that has proficient knowledge in LAMP, MEAN and Ruby on RAILS stacks. Developed using MySQL and NoSQL databases including ERD diagrams. Excellent communicator that excels in a team environment, known for tackling difficult obstacles such as API integration or learning new libraries. Experienced in researching, testing, wire-framing, documentation and deployment.

## PROJECTS

### World Cultures - Oct 2015

An educational web app, that I created on my own, utilizing Open Weather, Google Map, & Yummly API's to help kids to glean more information about Cities in the world.

*Technologies Used: Angular.js, Express, Node.js, Twitter Bootstrap, HTML5, CSS3, Git, GitHub*

### Beacon App - Nov 2015

A web app that allows drivers to easily notify friends and family when they are running late. Teamed up with 2 other developers. Researched and implemented Auth0 for the login and registration features. Worked alongside the project leader to implement the use of punub for beacon tracking.

*Technologies used: Express, Node.js, Mongoose MongoDB, Auth0 API, Angular, Twitter Bootstrap, HTML5, CSS3, Git, GitHub*

### The Restaurant Reviewer - Dec 2015

Ruby on Rails app, that allows users to add and review restaurants. Users can add ratings, & view location on Google Map. Deployed to Heroku, click on title to view.

*Technologies Used: Ruby on Rails, WEBrick, Twitter Bootstrap, HTML5, CSS3, Git, GitHub, Google Map API, Heroku*

### Wishlist - Aug 2015

Web app that allows different users to create wishlist items and favorite them.

*Technologies used: PHP, CodeIgniter, Apache, MySQL, Twitter Bootstrap, HTML5, CSS3*

## OTHER PROFESSIONAL EXPERIENCE

### Coulon Culinary Concepts- Owner

2009-2014

Created logo design for Au Dela Gourmet Teas, & the Basikblends Spice & Herb Blend portion of my business. Integrated authorize.net into my website to manage online payments.

### Basikneads Catering- Owner

2008-2013

Maintained multiple websites and used social media (Facebook/Twitter/Mail Chimp) to correspond with former/potential clients. Managed and set-up computer hardware and networks in an environment that used both Windows and Macs. Used Google office to manage calendars and documents across multiple platforms. Comfortable performing training due to experience teaching cooking classes featuring a variety of culinary styles and traditions. Designed brochures and print materials using Adobe Photoshop/Illustrator. Organized food preparation and event management for social and corporate events for 300+ guests served off-site.

### Au Dela - Owner

2005-2008

Owned a boutique private chef business, & Created logo design, & print materials for using Adobe Photoshop/Illustrator.
