Richard V. Folea III

8084 Milford Road | Gainesville, GA 30506 Cell: 770-365-3231 | folea3@gmail.com

Summary

Looking to move from QA to development role.

Experienced in object-oriented programming; developing, testing and debugging code; designing interfaces; and administering systems and networks.

Quickly learn and master new technologies and languages; successful working in both team and self-directed settings.

Strength in creative problem solving.

Works extremely well under pressure.

Education

edX.org - Hong Kong University of Science and Technology (online)
Java Certificate -

Certificate URL:

https://courses.edx.org/certificates/ee1dfc4b6fd2415e91a3691c0c2b3a60

Relevant experience:

- Rock Paper Scissors (Project) Understanding loops and if-else-if statements, and using user input
- Card Matching Game (Project) Manipulating Arrays, and using do-while and for loops

Codecademy.com (online) -

Completed courses:

- Learning Git Using and navigating Git, Bash and creating/branching repositories
- PHP PHP fundamentals, Object Oriented Programming, HTML with PHP
- JQuery JQuery fundamentals, how to create actions based on user input
- JavaScript JavaScript Fundamentals
- HTML & CSS HTML and CSS basics
- AngularJS Intro to AngularJS, creating an App with standalone UI

Related Work Experience

EnvisionWare - Provider of Library Self Service and Efficiency Solutions Location - Duluth, GA

Duration - August 2015 to Present

Position - QA Engineer:

Followed Agile Software Development workflow, writing tests and automated test scripts to prepare for regression. Regression includes black/white box testing, and running a series of automated test scripts. Any errors found restart regression testing.

Related Projects:

OneStop Novelist integration

Helped design formatting and functionality, as well as wrote code to handle recommendation title capitalization and related title recommendation.

Tableau Datasource Connection Modifier

Windows form app written in C# to edit MySQL data connection info in unpublished Tableau Datasources (.tds and tdsx files (xml files)) and then gives the option to publish the datasources and workbooks to the server.

OneStop Mock Phone app

Designed and wrote a phone app to function as a mobile OneStop terminal. The purpose of the app was to learn about AJAX, PHP, and then use those to communicate through the app to an apache server running a PHP script that controlled user logins and info in a MySQL database. Written in Lua (Corona SDK)

Life Accomplishments

- Eagle Scout Leadership and teamwork
- Team captain of Robotics team in high school Leading a team through a world class competition using technical skills and creative problem solving. Seasons lasted about 6 months.
- Self-taught the majority of coding languages. Very motivated to learn something new every day.
