### Full Stack Java Web Developer with prior TS/SCI

#### Summary of Qualifications

- Java 8 Oracle Certified Associate
- Have built full stack web applications using Java, REST APIs with Spring Rest, and the LAMP stack.
- Proven technical and analytical skills with five years experience in the US Navy as a Network Security Analyst. Developed background in internet technologies and some computer science fundamentals.
- Top in class of 12 students in 8 week Navy 'A' school training.
- Fast and flexible learner, open to learn new or different technologies.
- Enjoy working independently to solve problems, but able to humbly work with, and gain wisdom from teammates.

#### Technical Skills

**Languages:** Java, JavaScript, SQL, Python  
**Front-end:** HTML, CSS, JavaScript, AJAX, JQuery, AngularJS  
**Server-side:** MySQL, Linux, Tomcat, AWS  
**Frameworks:** Spring MVC, AngularJS  
**Architectures:** REST  
**Tools:** Git, GitHub, Eclipse, Maven  
**Web Fundamentals:** TCP/IP, OSI Model, Application Layer Protocols

#### Education and Training

**Skill Distillery**—July 2016-Present (Graduate November 2016)  
19 week immersive programming bootcamp. 50+ hours per week intensive study of Java and front-end web technologies. Studied for and passed Java 8 OCA exam.

#### **UH Maui College**

##### **Bachelor of Science: Engineering Technology**

Kahului, HI

Currently completed 50 credits towards a degree in Engineering Technology.

#### **Navy 'A' and 'C' School – 2009**

##### **Basic Digital Network Analysis**

Pensacola, FL

#### Accomplishments

##### **Joint Service Achievement Medal**

- Conducted analysis and research for the development of more than 3800 counter-terrorism domains.
- Identified 20 high priority targets that provided significant increase in focused collection.
- Released two time sensitive reports to national-level customers and increased visibility of a newly developed mission.
- Developed a centralized database crucial to the exploitation of 64 targets and led to identification of six communication domains in support of one of the Pacific Command's priority intelligence missions.

#### Work Experience

US Navy

May 2011 to March 2013

##### **Cyber Network Defense Analyst**

San Antonio, TX

- Conducted 800 hours of research and analysis on 500,000 packets of data. Efforts led to completion of two cyber reports and three new cyber threat mitigation procedures to strengthen the security posture of DoD networks.

US Navy

##### **Digital Network Exploitation Analyst**

May 2008 to May 2011

Kunua, HI

- Conducted 960 hours of research and analysis on a priority one target of interest. Efforts led to the capture of 10 high value targets, increasing Intelligence Community awareness and mission success.
- Released two product reports, one which was briefed to State Department policy makers, enhancing understanding of target capabilities and influencing future decisions on mission needs.

#### Other Employment

Valley Isle Fitness Center

April 2013 to August 2015

**Fitness Director** – Lahaina, HI

**StrengthsFinder Top 5 Strengths:** Futuristic, Deliberative, Relator, Strategic, Analytical
