TECHNICAL SKILLS

HTML | CSS | SCSS | Material-UI | JavaScript | React | Redux | Node | Express | Git | SQL | REST

PROJECTS

Fittr.us: http://www.fittr.us   Dec. 2017
- Front-end developer on a full-stack fitness tracker web app that imports and visualizes data from Fitbit.
- Built on a 4 dev team using React/Redux, Node, Express, and PostgresSQL.
- Led design using CSS Grid, flexbox, media queries, and Material-UI for styling and responsive layouts.
- Decreased development time by integrating SCSS for CSS variables & nesting.
- Conceptualized and wrote code for timer and stopwatch features using JavaScript and Moment.js.

Barely Teaching: https://barely-teaching-app.herokuapp.com   Nov. 2017
- Full stack application built to provide teachers with a hub for organizing tasks, recording voice memos, and creating student behavior reports.
- Built using React/Redux, Node, Express and Firebase.
- Designed mobile-responsive interface with SCSS, managed state in Redux, and stored reports in Firebase.
- Won "Best presentation" award.

Lakes of DFW: Oct. 2017
- Lake locator built with React and the Google Maps API.

EXPERIENCE

Marketing Merge Inc./Academy of Coaching Cognition   Remote
Tech Support   Apr. 2011 - Sep. 2017
- Increased brand awareness by creating, editing, and sending monthly newsletters with HTML & iContact.
- Utilized CMSs while implementing custom CSS to design customized funnel pages.
- Led small team in developing personalized marketing funnels for clients.
- Generated revenue from funnels by learning and integrating Stripe to process payments.
- Collaborated with lead developer to track bugs and maintain the website.

Marketing Merge Inc. and the Academy of Coaching Cognition are startups that operated as sister companies.
